Then, after speaking of the Northern determination to put down the rebellion, and saying that "their uprising has all the characteristics of the ferocious servile insurrection," the editor concludes that the war "will enable us to restore them to their normal condition of vassalage, and teach them that, 'cap in hand,' is the proper attitude of the servant be-

fore his master." And with " cap in hand," the whole Copperhead party now stand before their masters ready to do their bidding! The remarks of the Whig are perhaps entirely just, when applied to this class of our people, and the party has been the vassel of

TO OUR SUBSCRIBERS.

With this number, closes the second year's publication of the QUINCY UNION. Two years ago, a number of the Un ion men in this county, who were desirous of having a paper published in this place, which would represent the true political sentiment of a large majority of the citizens of Plumas county, subscribed for the purchase of the material of this office. The amount realized by the subscription was about \$1,100. (While the total cost of the office was upwards of \$2.100.) The agreement entered into between the subscribers and publishers, and which is still in force between the parties, was, that they (the subscribers) should be allowed to take out the amount of such subscriptions in advertising, job work, and by being furnished with copies of the paper, until the amount subscribed was refunded. It was also agreed that the POLITICAL Department of the paper should be under the control of an editor who should be appointed or engaged by the members of the Union Central Committee of Plumas county.

The paper was published, and the bus iness of the office, for the first six months was carried on by a company of printers and it useless for us at this time to speak of their acts. The "midnight bargain and sale," and the trouble which grew out of it, is still fresh in the memory of our readers; as is also the honerable position in which one or more individuals then placed themselves in regard to that transaction.

At the solicitation of the Central Committee, Mr. Buckbee became the editor of this paper, and has acted in that capacity for the past two years. And during that period he has not, to our knowledge, received any pecuniary recompense whatever. And if there is any member or members of the Union party. in Plumas county, who are not satisfied with his course as editor of this paper, or who think that they can "fill the position" with better satisfaction to a majority of the Union men of this county, we will take the responsibility (Mr. B. being absent at this time) of saying that he will be most happy to resign his position in their favor, and is ready at any time to vacate, and then welcome them to the "sanctum."

THE GREAT NATIONAL VERDICT .- We are now in a position to speak with confidence in regard to the resolution of the American people to preserve the Union established by their fathers. That resolution is fixed and immovable. The result of the recent elections in the East. dispels all doubt on the subject. The people are to-day no more disposed to escape the burdens of war, and purchase the blessings of peace by humiliating concessions, than they were four years ago. This furnishes a glorious testimony to the patriotism of the nathe test. Henceforth let none be weak Hon. Jesse O. Goodwin, it is expected, enough to distrust a people that have will give the citizens of Lassen one of exhibited a spirit so heroic, and trihis incomparable speeches, before electrible. The experiment of free Republiumphantly issued from an ordeal so tertion, and it is the intention to give him can institutions is no longer an experian audience as large as the one at Su- ment. The theorem that the people are J. E. EDWARDS, sanville which met to listen to Bidwell competent to the task of self-government has been demonstrated. This nation has now endured the test, both of enthusiastic, and our coppery friends are prosperity and adversity. It has been beginning to believe that the patriotic tried in peace and in war, both foreign and domestic. Our system of government is no longer a theory to be discussed; it is a problem solved. We speak thus confidently, because we take it for granted that the loval States are fully able to carry out and give effect to the declared will of their citizens, and that if they are thoroughly resolved to preserve the Union, it will be preserved -The recent elections show that such is ical followers to "adorn the smallest kind their will. THE RICH BAR DEMOCRACY ON THE RAM-PAGE. - At a meeting of the Democratic Club, of Rich Bar, held on the 1st inst. the following officers were elected: President, Richard Irwin : Vice President, Lamb; Secretary, Bogliolo; Corresponding Secretary, Evey, and Bone, Sergeant-at-Arms(?). Resolutions were adopted. The following is a specimen:

Resolved. That we unqualifiedly denounce the policy of incarcerating citi zens without due process of law, and warn those in power that it will be no longer submitted to-"forbearance having ceased to be a virtue."

The Rich Bar Demograts have spoken! The edict has gone forth! They will no longer submit! Bully for them! But look at the next:

Resolved, That we are in favor of the calling of a convention of the several States, for the purpose of ending this unholy and cruel war. Believing the Union can be restored in all its integrity ment of the sword.

No doubt the convention will be called for their benefit. Resolved, That we utterly condemn the policy of any State or States in fill-

ing up their quotas of troops with negroes from the Slave States. The Democrats, in that section, probably want a chance in the draft. The next is "nifty" on Tom Shannon and

We denounce and condemn the course of Conness, Higby, Cole and Shannon. Their next resolution refers to their candidate for Supervisor:

Resolved. That we have the utmost corfidence in Abram Bolger, our candidate for Supervisor, and commend him to the Democracy of this district.

That resolution was probably offered as a joke; but if they are desirous of having the merits and demerits of the candidate heralded forth, let them adopt one more resolution of the same kind, to prove that they are in earnest, and it shall be done to their hearts' content. A few legal transactions, if properly 'showed up," might not commend him to the Democracy. Sabbe ?-better let a "good thing" alone.

No WONDER .- The Democratic Club failed to meet on Saturday night last. The election news was too " salty " for them.

SALUTE .- Upon the arrival of the election news from the East, the "Copperhead teaser" was brought out, and a salute fired in honor of the Commercial street, a few doors below Union victories.

INDIAN RAID. -It is reported that a band of Indians recently made an attack upon the camps of several cattle herders, in Surprise Valley, and ran Late Surgeon, U. S. A., Quarantine Physician a off two hundred head of cattle.

DISCHARGED. - We learn that the soldiers in Capt. Whitlock's company, now stationed in Arizona were to be discharged on the 18th inst .-Nearly all of them had signified their intention of re-enlisting.

Coming.-We learn that the Hon. Jesse O. Goodwin, of Ynba county, has signified his intention of addressing the citizens of this county before the election. If such should prove to be the case, due notice of his appointments will be given.

To Correspondents .- Lines by "Olive Branch," and "A. T. B." received. They will appear next week. "Harrolson" and "J. G. B.'s" communications received. They are "good;" in fact "too good " for publication.

Union MEETING .- The Union CLUB at Taylorville held a meeting on Wednesday night last, and was addressed by Gen. Bidwell and Mr. J. R. Buckbee. We were promised a report of the meeting, but it has hot been received.

ACCIDENT .- A singular accident occurred at Jamison City a few days since. One of the citizens of that place was waltzing with one of the girls belonging to a troupe of hurdies, which has been traveling through this county during the past season, when by some mis-step, they both lost their balance, and fell down; and in the fall, the girl's shoulder was broken.

WATCH THEM .- It the report is true, that the Peace men in the North have nominated candidates for President and Vice President, we would suggest to the Union men that they watch the cops in this section, and see how gracefully some of them can swallow their praise of Littulmac, and erawfish to the support of the new lights of Democracy. Some of them will do it.

A Good Jone. The effizens of Susanville were addressed last week by Judge Hogan. Of the crowd, two-thirds were Union men, who applanded the Judge "in season and out of season." The audience generally understood the joke, but it kept E. T. cursing the administration and the abolitionists, for three mortal heurs .- Result : A gain of three for Uncle Abe and Andy. The other is near the Corvalles ledge, on the west side of North Canon, and from specimens taken from the ledge, our informant believes the quartz will average as high as \$50 to the ton. The rock taken from the McClellan ledge, has averaged \$25 per ton for the last six weeks.

Jantson Creek .- Nearly all of the gold which has been taken out of the mines in the flat on which Jamison City is built, has been found on the top of a solid bed of cement. A company is now at work sinking a shaft through the cement to the bed rock. They have reached the depth of one hundred and twenty feet, and will have about twenty feet further to go before they reach the rock. The company expects to take out the ore in caps full, when they get through the company.

ELECTRICITY

When it was promulgated that disease could be entirely endicated from the system without the use of poisonous drugs, the unthinking or those who did not look deeply into cause and effect, souted the assertion de chimerical, and adduced strong evidence of its utter impossibility. Long articles, replete with arguments, seemingly maniswerable, of the position that only through the digestive system could the blood be purged of the accumulation of the poisons which constitute disease. A great cry went up from the interested in the continued supremacy of the old system of one poison to curvatuother, that electricity as a curative agent, had been tried and proved to be of but little if any value—thinking, poor souls, the world of science stood at the same point it occupied one hundred years ago. They were varyong, while those old fogies were content if they cured che in every five natients, there were those who were searching into the science of electricity, and finally fit was discovered that the trouble was in the instruments used. From that time to the present, improvements have rapidly advanced, until every disease in the catalogue of human ills have been either cared altogether, or checked an as to enable the sufferer to seek changes of climate which ultimately perform a perfect cure. Diseases hitherto considered incurable, have been cured, and those diseases which took months, and every years, to cure by medical process, are now cured in a few weeks; retieved by the Improved Instruments of Dr. J. H. Jesselvn, Resident Physician at the Electropathic Institute, 346 Washington street, San Francisco. It is astonishing to see the number of patients and diversity of diseases that have been relieved by the electropathic system. From early norn till late at night his instrument

bleasantness of swallowing the nauseous stuff. During the time the Institute has been in operation, there has been more benefit to the human family derived from the system, than from all other systems combined, during the same period. Among the most troublesome diseases to which Californians have been exposed, is RHECHATISM. None have given the honorable practitioner more trouble to relieve and see allows and see the companion.

We dwell upon this disease because it is one about which there has been more deception used than all others put together. It is not necessary to enumerate all the diseases in the catalogue, for that would be occupying space to no purpose. Every disease has been under treatment by this system, and there are none but have received benefit, either in this Stale or at the East.

er in this State or at the East.

There are, at present very few Instruments in the world that can be depended on. A good Instrument costs very heavy, and cannot be purchassed unless ordered, and there are very few who are able to manufacture them, for want of knowledge of the healing principle. The only instrument to be depended upon in this State is at the Electropathic Institute.

Connected with this system are the renowned Electri Magnetic Baths. Here let us caution the public against the numerous imposters in the bathing line. The pure magnetic bath is one of the most effective aids in the re-moval of disease, from the system; but if given at the magnetic bath is one of the most effective aids in the removal of disease, from the system; but if given at the wrong time is likely to aggravate trouble, and cases have been known where the patient has been injured so badly as to require months to remove the injury. Fersons in quest of this bath should be carefulant to apply to a place where there is no physician to judge of the necessity of the remode. In fact, the only place where they can be obtained, in all their purity, is at the Institute, where the Resident-Physician will always be happy to examine and see that they are not unseasonably administered, and if not necessary, advise the requisite remedy.

To FEMALES, the Directors would say Electroputhy is

To Females, the Directors would say, Electropathy is To Females, the Directors would say, Electropathy is particularly applicable to your delicate and fragile systems, and to the numerous froublesome and painful diseases to which you are Hable; should you be irregular, a few treatments will restore the functions to the proper state without pain or inconvenience, should you be weak and enfectived, either general or local, this system imparts strength and vitality, making the recinient feel buoyant and healthful, where before they were languid and unable to enjoy the pleasures of life. One great blessing connected with Electropathy is, if purifies the system so thoroughly that it beautifies the complexion, making the coarse and freshed skin as pure and healthful look.

To the nervous the Eigentees would say, Electropath is particular of his method of practice can be obtained by relevance to his advertisement, in another column. The Doctor is well known to us as a scientific gentleman, and an ardent devotee to his profession.

To the nervous the Eirectors would say, that you can be entirely relieved from those dreadful feelings of evil fore-bodings, and your system strengthened so that nothing can disturb the current of your life. Several cases of insanity, arising from a disarrangement of the nervous system, have been entirely cured by this system. The Directors in making this statement, do it in the hoje that it may be the means of awakening the public who have not studied in such things, to a sensy of their duties, and if possible prevent those who have the care of the rising generation, from poisoning their young charges with vite drugs, thereby entailing upon them troubles, which in after life may yent those who have the care of the rising generation, from poisoning their young charges with vite drugs, thereby entailing upon them troubles, which in after life may cause them to curse their origin. Also, that those in need of remedial agents, may know where they can find them, without resorting to taking the thousand and one poisonous nostrums that are confilmably being palmed off as sovereign remedies for all the ills of humanity. Avoid them all—they are snares set to rob you, and to your bodily injury at the same sume. The following is the list of cases which have been successfully trailed by the Electronathic system, at

Neuralgia... Dyspepsia. General and Sexual Debility Fever and Ague Mercurial Affections
Scrofula—long standing Paralysis.
Diseases of the Eye Catarrh in the Head. Catarrh in the Lungs. Liver Complaints... Incipient Consumption.

Persons seeking remedial assistance may wish to know something of the system by which cheeners are so rapidly semantial from the body! Electricity in a fluid of so subtle a nature that it can only be studied by its results. We know by its action it forces everything of a foreign mature in the body from the centre to the surface, while the vitality that it imparts fills up the vacuum, preventing thereby the subtle poison from returning to the hitherto diseased parts—and here let it be understood. That the bath should never be administered unrithe disease has been forced to the surface except, in cases where favor has not set in. Its action upon mercurial diseases is peculiar. The best authorities are of the opinion that it liquidities the mercury—which, when in a liquid state by its own specific gravity forces itself out of the body. This result has been arrived at by testing the water after an Electro-Magnetic Bath. After such tests have been fund in the water, the patient is not troubled any more with those pairs peculiar to the diseases. In all other cases it forces to the surface and is washed of by the bath. The whole system in its application is a luxury—there being no pairs or inconvenience attending upon it; but the reverse is the case—being one continued pleasure all the time. Try it, you that are suffering from disease or the injudicious use of poisonous drugs and you will be made. there being no pain or inconvenience attending upon it; but the reverse is the case—being one continued pleasure all the time. Try it, you that are suffering from disease or the injudicious use of poisonous drugs and you will be made to rejoice that you had the courage to strike out from the

RHEUMATISM. None have given the honorable practitioner more trouble torelieve and none have prejended to cure (if we except known empries) permanently. But this subtle disease gives, way before the Electropathic system in a very short time, enabling the sufferer to go about his business without pain, and the dread and fear of a relapse. And so with most other diseases, considered incurable. We mention Rheumatism because of its abundance, but we could connected many many other disease. nmerate many many other diseases full as troublesome

enmerate many many other diseases full as trotalesome, and some far more fatal in their results. There is one more troublesome disease or disorder, which stands upon the calendar, which is fatal to both body and mind. It is one about which there has been more deception used by empiries, because it is of a private nature.

We allode to sexual debility, paraded by quacks in the journals of the day, a trouble which never was cured by medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of tonics.—The poor victim is taking medicines and paying for them until his last dollar is gone, and then as soon as he undertakes to work to obtain more funds, the trouble comes back in all its low the more funds, the trouble comes back in all its low the means. To this disease Electropathy is peculiarly applicable, its action being upon the spermatic nerve, strengthens the secretory organs, and at the same time creatin an equilibrium in the system, thereby preventing a relapse.

We dwell upon this disease because it is one about which there has been more deception used than all others put together: It is not because to compete the context of the context to the context to context to the context to context to the context to context to context to the context to context to context to the contex

To the Directors and Resident Physician of the Electropathic Institute.

For those who desire speedy and permanent relief from the rhenmatic pains so prevalent in this region, we can recommend no surer remedy than a visit to Dr. Josselyn, at his rooms in San Francisco, No. 645, Washington street.—Planting the results of the street of the street.

We call the attention of our readers to the advertisement of Lr. Josselyn's Electropathic Institute. Voluntarily and unsolicited we make the following statement, proving its great beneficial effects, particularly in lineumatic cases.—Some months since we were on an editorial trip, visiting the mountains. FREEDOM OF THE PRESS .- The very pa per and men that complain most about the curtailment of the freedom of speech and of the press, are the ones that indulge most in an unlimited freedom-a license, we may say-of the privilege complained of. They pervert and abuse the freedom of speech and of the press to an extent which would not be allowed in any other country in the world, and that too at the very time they are complaining of a want of such liberty. Of all the inconsistencies ever before met with, on any subject, nothing has been known to equal this consumate Copperhead inconsistency and self-stulification. An Iowa Copperhead paper, for instance, characterizes President Lincoln as a "usurper, tyrant, a man of blood a monster of iniquity, the embodiment of Murder and infinite Crime." The same sheet declares that the South is but fighting for her Constitutional rights; and that the people of the South will never give up the struggle until their Independence is established. The further infamous declaration is made that the Republican party was the cause of the war, and that Jeff Davis is to day a more loyal man to the Constitution and Laws of this Gov-per also unblushingly declares that the Miss McBoyle Chas S Preble. and thorough and overpowering that no Mrs Dunham Democrat, in any of the loyal states dare Mrs Orrie Woodill. A DISPUTED QUESTION .- An old toper, after indulging quite freely in his accustomed beverage, amused himself in teasing a mettlesome horse. The animal not fancying his familiarity, suddenly reared and the disciple of Baccus found himself sprawling in an adjacent mudpuddle. Gathering himself up as quickly as his situation would allow he shouted to his son, who was standing by-

easily get out of order, is strong and simple in con struction, and its use is easily learned by the most inexperienced.

It will do a greater range of work, with less trouble and change, and we consider it altogether better than any other Family Sewing Machine we have ever seen. Mrs Dr Chase..... 20 Clay st. ''

A Certificate of Cure that Every One Should Read!!

v2-n4tf

SAN FRANCISCO, AUGUST 1st, 1864. MESSRS. CRANE & BRIGHAM, DRUGGISTS-Cor. of Clay and Front Streets:

GENTLEMEN: -I notice an advertisement in the newspapers, that you are the Agents for WATTS' NERVOUS ANTIDOTE, and being satisfied that there are many persons in this State that are suffering with RHEUMATISM, that would gladly avail themselves of any preparation that would cure them, I thought it a duty I owed to suffering humanity, to make a statement of my case.

Some eight years since, while working upon a Rail Road I strained my back severally in attempt. Some eight years since, while working upon a Rail Road, I strained my back severely, in attempting to lift a car wheel, being in a profuse perspiration at the time, and being compelled to go home without a coat, I took a severe cold, which eventually brought on the Rheumatism which kept me confined to the house a large portion of the time for several years. I consulted most of the leading physicians in Sacramento, and in this city, visited the Warm Springs at Alameda, tried the various compounds that are advertised as cures for this compounds that are advertised as cures for this terrible disease, but all to no purpose. My complaint, instead of getting better, grew worse, my left leg became partially paralyzed, the pains in the back and chest became so intense, that I often wished myself dead. I could not sleep more than two hours of a night, my appetite failed me, and I grew emaciated day after day, until finally, I made up my mind that my troubles would soon be over. While wabbling down Clay Street one day, in 1862, I met a gentleman with whom I was formerly acquainted. He enquired the nature of my disconnections.

While wabbling down Clay Street one day, in 1862, I met a gentleman with whom I was formerly acquainted. He enquired the nature of my disease, and upon being informed he stated that he had several years before been similarly affected in Washington, and that he had cured himself by the use of WATT'S NERVOUS ANTIDOTE. This was the first time that I had heard of the medicine, and I determined to give it a trial. I procured a half dozen bottles, and before I had used two of them I could sleep all night, my appetite had improved and I felt considerable easier. Encouraged by the apparent improvement, I determined to persevere in the use of it, as it was my only hope."—I did so, and used it at intervals for two years. I found its effect slow but very sure, until now, I am entirely cured. I HAVE NOT HAD AN ATTACK OF RHEUMATISM FOR SIX MONTHS. My back is as strong and as well as ever, my leg is as good as new, my appetite altogether too good for my pocket, and I am physically as strong as I was ten years ago, and feel myself able to whip any man of my size and age in the city.

Hoping that this plain statement of my sufferings and ultimate cure will fall under the eye of some one similarly afflicted that he may be benefitted by my experience.

I am, Gentleman. Your most odd't.

I am, Gentleman, Your most obd't. NOTE.—The gentleman who wrote the above card does not wish his name to appear in print, but it will be given to those who wish to see him per-

WHY WILL YOU BE SICK.

TT IS STRANGE THAT SO MANY PERSONS will suffer for years with diseases when they can be so readily cured.

DR. A. BALL, Has been established in San Francisco for ten years

and during that period has not failed to effect a cure in a single case that he has undertaken. DOCTOR BALL after a study of forty years has succeeded in compounding a medicine of PURELY VEGETABLE PREPARATION, that will cure the worst cases of Gonorhoa, Gleet, Strictures, Syphilis, Impotency. Skin Diseases, and all complains arising from immoral practices, in less time than by any other process known, without injury to the system.

DR. BALL'S LADIES' RELIEF FOR THE radical cure of weakness and irregularities to which so many ladies of the Pacific Coast are subject, owing principally to the peculiarities of the climate, is the best preparation yet discovered by the medical faculty, as thousands who have used it are prepared to testify.

DR. BALL IS NO QUACK. He is a regular educated Physician of forty years standing and has a diploma, which he will be pleased to exhibit to all those who may wish to examine it. Persons living at a distance, by sending a description of their complaint, can have this medicine put in a package and forwarded by mail or express, in such a manner as not only to insure safety in transitu, but so that no one would suspect what References.

References will be sent by mail to those who wish to enquire as to the Doctor's ability before placing themselves in his charge. WS. ADDRESS A. BALL, M. D., No. 328, Montcomery street, between California and Pine, San rancisco, California.
